FOREWORD

Policy and Supporting Positions lists the leading positions in the United States Government. These positions are outside the competitive civil service, and include those to which appointments are made under Schedule C of the civil service rules, certain other excepted positions at grade GS-14 (or the equivalent) and above, Senior Foreign Service positions, and selected positions in the Senior Executive Service (SES).

All General positions in the SES are listed. Career Reserved SES positions, which can be filled only by career appointees, are not. By law, no more than 10 percent of all SES positions governmentwide may be filled by noncareer appointees. Listed SES positions which are filled by career appointees are identified as being held by a "Career Incumbent."

In reviewing the positions listed in this publication, the reader should be aware that the incumbents of some positions, such as those filled by noncareer executive assignment and Schedule C appointments, serve at the pleasure of the agency head. The excepted status of these positions reflects the fact that they may carry policy determining responsibilities, entail advocacy of Administration programs, or require maintenance of a relationship of trust and confidentiality with the agency's top executives. Many other positions, such as those in the Postal Service, or the statutory Inspectors General, are appointed on the basis of specific qualifications.

In addition to the positions listed in the State Department section of this publication, under current law, all positions which are classified as Foreign Service Officer (FSO) positions are subject to political appointment. Public Law 95-465 provides that a noncareer appointment may be made to any FSO position which is not already filled. For example, if a current incumbent of an FSO position is transferred, or leaves the Foreign Service, the position may be filled by a noncareer appointment. All positions in the Senior Foreign Service are also subject to noncareer appointment, with a limitation on the total number of such appointments to 5 percent.

Agreement could not be reached with the Administrative Office of the United States Courts on the printing of a complete listing of positions, including vacant Federal judgeships. Vacant judgeships are filled by Presidential appointment under the provisions of Title 28 (Judiciary and Judicial Procedure) of the United States Code. The Committee is disappointed by the lack of cooperation exhibited by the Administrative Office of the United States Courts. In order to avoid further delay caused by a protracted dispute over this issue, it was decided to proceed with the publication, even though it contains incomplete information regarding the judiciary. Requests for additional information on the positions not listed should be directed to the Administrative Office of the U.S. Courts.

Additional information on the Senior Executive Service, positions excepted from the competitive service, and Federal salary schedules is provided in the appendixes.

APPENDIXES

APPENDIX NO. 1

MEMORANDUM ON FEDERAL POSITIONS EXCEPTED FROM THE COMPETITIVE CIVIL SERVICE BY THE OFFICE OF PERSONNEL MANAGEMENT (OPM)

Authority

By Executive order, the President has authorized the Office of Personnel Management (OPM) to exempt from the competitive civil service positions which otherwise would be subject to the Civil Service rules and regulations governing appointment and employment, generally. Civil Service Rule VI defines schedule C and grants authority for the OPM to list positions in the excepted schedules. Under Civil Service Rule IX, which established the Executive Assignment System for positions in grades GS-16, GS-17, and GS-18, the OPM may except positions and authorize agencies to fill them under noncareer executive assignment.

The OPM has been given the authority to revoke schedule C listings. It also periodically reviews exceptions made under Rule IX, and, after consultation with the agency concerned, revokes exceptions of executive assignment positions which no longer meet the criteria for exception.

The OPM makes decisions about exceptions and revocations after consideration of agency justifications and its own independent reviews and analyses. All substantive decisions are made by the Director personally and are not delegated.

Categories of exceptions

Noncareer executive assignment.—These assignments are made to nonmanagerial positions in grades GS-16, GS-17, and GS-18 if the incumbent will: (1) be deeply involved in the advocacy of controversial Administration programs; (2) participate significantly in the determination of major political policies of the Administration; or (3) serve as a principal assistant or adviser to a Presidential appointee or other key political figure. The positions are of the type which share with Presidential appointees the advocacy of current Administration policies and help assure control of the executive machinery of Government by the political party in power, but which are not included in the Senior Executive Service (SES).

Schedule C.—This schedule is for positions of a confidential or policy-determining character not in grades GS-16, GS-17, and GS-18, or the Senior Executive Service.

Filling excepted positions

Agencies generally establish qualification requirements for excepted positions, although the Office of Personnel Management does this for positions authorized to be filled by noncareer executive assignment.

Removals from excepted positions

Because of their policy-determining or confidential nature, positions authorized to be filled by noncareer executive assignment and positions in schedule C may be subject to change of National Administration. Some incumbents of these and other excepted positions, however, are entitled to certain protections, which are outlined in the table on the following page.

APPENDIX NO. 2

Do. Do.
6. Veterans: With less than 1 year of current continuous employment serving in positions excluded by statute.	Notification only.....	Do.
7. All employees: With status in their positions ³ serving in Schedule C.	Conduct-based removal must be for such cause as will promote the efficiency of the service. The employee must be notified in writing at least 30 days in advance of the proposed removal and of the specific reasons for it. He must be given at least 7 days to answer. He is entitled to be represented by an attorney or other representative. His reply must be considered by the deciding official. He must be given a written decision, containing the reasons for the action and information on his right of appeal to the Merit Systems Protection Board. For <i>performance-based removals</i> (unless agency excluded by statute), employee is entitled to: A reasonable opportunity to improve. A 30 days' advance written notice of specific instances of unacceptable performance on which the removal is based; Identification of the critical elements involved; The right to be represented; A reasonable time to answer; and A written decision.	For conduct-based and performance-based actions, appeal to the Merit Systems Protection Board (MSPB) covers sufficiency of reasons for removal as well as compliance with prescribed procedures.

¹ Schedule C employees and employees serving under Noncareer Executive Assignment are excluded from any entitlements by law and Office of Personnel Management Regulation.

² Personal status is civil service status acquired during a period of competitive service.

³ An employee has status in his position if (a) he was serving, with civil service status, in a position in the competitive service when the Office of Personnel Management listed the position in schedule C, and (b) he is still serving in that position.

APPENDIX NO. 3

SENIOR EXECUTIVE SERVICE

The Senior Executive Service (SES) is a personnel system covering top level executive and managerial positions in most Federal agencies. Established by the Civil Service Reform Act of 1978, the Senior Executive Service includes managerial and other executive positions previously classified at GS-16, 17, and 18 and Executive Level IV and V positions not requiring Senate confirmation. The number and types of SES positions and appointments to them are governed by specific statutory provisions. By law, only 10 percent of these positions may be filled by noncareer appointments.

Number and types of SES positions

Currently there are approximately 8,000 SES positions allocated by the Office of Personnel Management (OPM) to individual agencies under an overall ceiling established by law. Positions in the FBI, certain intelligence agencies, the Foreign Service, and Government corporations are exempt from inclusion in the SES.

There are two types of positions in the Senior Executive Service: career reserved and general. About half of the SES positions are in each category. Once a position is designated by an agency, the designation may not be changed without prior OPM approval.

Career reserved.—Positions are designated as career reserved where the need to ensure impartiality, or the public's confidence in the impartiality, of the Government requires that they be filled only by career employees (e.g., law enforcement and audit positions).

General.—This category applies to all SES positions not designated as career reserved. General positions may be filled by career, noncareer, or limited appointments. A given general position may be filled at one time by a career appointee and at another time by a noncareer or limited appointee, or vice versa. Because of the limitation on the total number of noncareer and limited appointees, as discussed below, most general positions will be filled by career appointees.

Appointments to SES positions

The legislation establishing the Senior Executive Service provides three methods of appointment to SES positions. Veterans' preference is not applicable in the SES.

Career appointments.—Career appointments to the Senior Executive Service are made through a merit staffing (competitive) process which includes recruitment through published announcement, review by the agency of the qualifications of each candidate, and a further review of an OPM-established Qualifications Review Board of the executive qualifications of individuals proposed for appointment.

A career appointee to an SES position serves a 1-year probationary period. Upon completion of the probationary period, the appointee acquires tenure rights and may be removed from the SES only for cause or for poor performance. Like all career Federal employees, a career member of the SES is entitled to protection against retaliatory or politically motivated personnel actions and may lodge a complaint with the Special Counsel of the Merit Systems Protection Board if a prohibited personnel practice has occurred.

In addition, career SES members have some specific protections during any transition period. Thus, a performance appraisal for a career member may not be made within 120 days after the beginning of a new Presidential Administration, i.e., one where the President changes. Further, a career member of the SES may not be involuntarily reassigned within 120 days after the appointment of a new agency head, or during the same period after the appointment of an immediate supervisor who is not a career employee.

When a career member is reassigned, he or she must be given 15 days advance written notice. If the reassignment is to another commuting area, the notice period is 60 days, and the agency first must consult with the individual as to the reasons and the individual's preferences. A career SES member may not be involuntarily transferred to another agency.

Noncareer appointments.—By law, no more than 10 percent of total SES positions, Government-wide, may be filled by noncareer appointees. The proportion of noncareer appointees may, however, vary from agency to agency (up to a limit of 25 percent) within the overall total. To administer this provision, OPM allocates to individual agencies an authorization for the number of noncareer appointments that may be made by the agency.

Noncareer appointees may be placed in any SES position that is not designed as career reserved. There is no requirement for competitive staffing, but the appointee must meet the qualification standards for the position as determined by the agency head.

Any noncareer appointee may be removed for loss of confidence or change in policy. There is no appeal right following removal of a noncareer appointee.

To facilitate transitions while providing necessary continuity, OPM will normally be able to provide some temporary noncareer appointment authorities to agencies. Thus, some new appointments may be made before it has been determined whether or not removal of existing noncareer appointees is appropriate.

Limited appointments.—Limited term and limited emergency appointments are used in situations where the position is not continuing (e.g., to head a special project), or where a prompt selection must be made to meet an emergency need. Limited term appointments may not continue for longer than 3 years; limited emergency appointments, 18 months. By law, limited appointments may not exceed 5 percent of total SES positions. An agency may make a limited appointment only with the approval by OPM of the appointing authority. As in the case of noncareer appointments, selection procedures and qualifications requirements are determined by the agency, and service is at the pleasure of the appointing authority.

By law the appointment or removal of a person to or from any SES position in an independent regulatory commission shall not be subject, directly or indirectly, to review or approval by an officer or entity within the Executive Office of the President.

SES staffing in specific agencies

The table which follows gives, by agency, the total number of SES positions allocated, the total number of noncareer and limited appointment authorities, and the number of noncareer and limited SES employees actually serving as of June 30, 1988, which is the latest date information is available.

APPENDIX NO. 4

FEDERAL SALARY SCHEDULES FOR 1988

The information in the body of this report reflects grades or salaries as of January 1, 1988. Where an ungraded position has a salary rate, the basic entrance salary as of January 1 is shown.

EXECUTIVE SCHEDULE

The Executive Schedule consists of five levels, for which the following rates were in effect on January 1:

Level I	\$99,500
Level II	89,500
Level III	82,500
Level IV	77,500
Level V	72,500

SENIOR EXECUTIVE SERVICE SCHEDULE

Pay for the Senior Executive Service is established by the President at rates which range from the rate of basic pay payable for GS-16, step 1, of the General Schedule to the rate of pay payable for level IV of the Executive Schedule. SES career appointees are eligible for Presidential rank awards and performance awards in addition to basic pay.

The Senior Executive Schedule consists of six levels, for which the following rates were in effect on January 1:

ES-1	\$65,994
ES-2	68,952
ES-3	71,910
ES-4	73,400
ES-5	75,500
ES-6	77,500

GENERAL SCHEDULE

Initial appointments to positions under the General Schedule are normally made at the minimum rate of the grade, although under certain circumstances, individuals with superior qualifications may be appointed at a rate above the minimum rate, if the position is in grade GS-11 or above.

Step increases are granted General Schedule employees at the end of 52 weeks of service in steps 1, 2, and 3 of each grade; at the end of 104 weeks of service in steps 4, 5, and 6; and at the end of 156 weeks of service in steps 7, 8, and 9. An employee's work must be determined to be of an acceptable level of competence before each step increase. In addition to the periodic step increase, an employee whose work is outstanding may be advanced to a higher step on this basis no more than once every 52 weeks.

It should be noted that employees in steps 5 through 9 of GS-16, all five steps of GS-17, and the single step for GS-18 were all paid \$72,500, the rate for level V of the Executive Schedule. This salary compression results from section 5308 of title 5, United States Code, which provides that General Schedule pay may not exceed the rate for level V. (This level V ceiling also applies to the Foreign Service schedule and the Veterans Administration Department of Medicine and Surgery schedules, appearing later in this part.)
